

LE MANS ULTIMATE / GTD

赛道指南与车型推荐

Circuit Guide & Car Recommendations

18 条赛道 | 24 辆 Hypercar / LMGT3 | 144 条常规与 Sleeper 推荐
18 circuits | 24 cars | 144 regular and Sleeper recommendations

内容版本 / Content release: 2026.09.22.1

游戏参考 / Game reference: V1.4.2 | 2026-09-22

阅读说明 / Editorial & Verification Notes

内容范围：本册完整汇编项目中 18 条赛道、24 辆车型、108 条常规推荐与 36 条 Sleeper 之选。
Scope: This edition compiles all 18 circuits, 24 cars, 108 regular recommendations, and 36 Sleeper Picks in the project.

证据边界：赛道与车型事实来自所列官方资料或驾驶指南；推荐理由和练习方法属于编辑整理。未提供统一 V1.4.2 圈速或 BoP 实测，因此所有推荐均标为未验证，不应视为绝对排名。
Evidence boundary: Circuit and car facts use the listed official pages or driving guides. Recommendation reasons and exercises are editorial. No uniform V1.4.2 lap-time or BoP test exists here, so every pick remains unverified and is not an absolute ranking.

	23. Toyota GR010-Hybrid Hypercar
	24. Vanwall Vandervell 680 Hypercar

01 / 18 Bahrain

萨基尔·巴林 (Sakhir, Bahrain) | 5.412 km | BASE CONTENT

赛道特性：重刹区、低速牵引力 (traction) 和后轮胎管理。

Character: Heavy stops, low-speed traction, and rear-tyre management.

主要挑战：连续制动区让出弯和后轮温度在一段赛程中都很关键。

Challenge: Repeated braking zones make exits and rear temperatures matter through a stint.

驾驶建议：保持直线制动，耐心松开踏板，出弯保护后轮。

Driving advice: Brake in a straight line, release the pedal patiently, and protect the rear tyres on exit.

来源要点：官方强调高温与轮胎衰退。

Source observation: The official overview highlights heat and tire degradation.

练习与复盘：固定油量连续跑短 stint，比较前后段圈速与出弯打滑次数，先追求稳定。

Practice and reflection: Run a short stint at a fixed starting fuel load; compare early and late pace and exit slides before chasing a peak lap.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

BMW M4 LMGT3

稳定且兼容路肩的平衡，让巴林的重刹区更从容。

Its stable, kerb-friendly balance keeps Bahrain's heavy stops calm.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMG3**Corvette Z06 LMG3.R**

自信的制动和可预测的牵引力适合巴林的低速出弯。

Confident braking and predictable traction suit Bahrain's slow exits.

优点 / Strengths: 制动信心足，牵引力（traction）可预测 / confident braking and predictable traction

注意 / Caveats: 需要耐心用油门带动车尾转向 / throttle rotation needs patience

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMG3**Lexus RC F LMG3**

令人安心的稳定性有助于在巴林重刹后管理后轮胎。

Reassuring stability supports rear-tyre management after Bahrain's heavy stops.

优点 / Strengths: 稳定感令人安心，V8 输出易用 / reassuring stability and usable V8 delivery

注意 / Caveats: 极紧凑的方向变化中转向较慢 / slower rotation in very tight changes

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMG3**Mercedes-AMG LMG3**

稳定制动平台让连续重刹更容易掌握，同时仍保留实用的出弯速度。

A stable braking platform makes repeated heavy stops accessible without giving away useful exit pace.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Toyota GR010-Hybrid**

稳定且偏向牵引力的表现适合巴林的低速出弯和长距离赛程。

Its stable traction-oriented behaviour fits Bahrain's slow exits and long stints.

优点 / Strengths: 稳定、牵引力（traction）好，适合耐力赛节奏 / stability, traction, and endurance-friendly behaviour

注意 / Caveats: 在紧凑路段转向较慢，可能损失时间 / slower rotation can cost time in tight sectors

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Cadillac V-Series.R**

强力制动和机械牵引力适合巴林的连续重刹区。

Strong braking and mechanical traction help at Bahrain's repeated heavy stops.

优点 / Strengths: 制动强，机械牵引力（traction）好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Porsche 963**

宽广的操作窗口让巴林的后轮胎管理更容易上手。

Its broad operating window makes Bahrain's rear-tyre management approachable.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8 2024

容易掌握的转向与现代空气动力学，让兼顾轮胎的节奏更容易在长段中复现。

Its approachable rotation and modern aero make tyre-conscious pace easier to repeat across a stint.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

02 / 18 Circuit de Barcelona-Catalunya

蒙特梅洛，西班牙（Montmeló, Spain） | 4.657 km | DLC

赛道特性：长距离负荷弯，搭配技术性很强的末段。

Character: Long loaded corners plus a mixed technical final sector.

主要挑战：持续的横向负荷会在进入较慢末段前考验轮胎平衡。

Challenge: Sustained lateral load tests tyre balance before the slower final sequence.

驾驶建议：负荷弯里保持转向输入整洁，然后优先保证末段出弯干净。

Driving advice: Keep steering inputs tidy in the loaded turns, then prioritize a clean final-sector exit.

来源要点：高速长弯、技术中速段与长直道共同考验轮胎和车辆平衡。

Source observation: Fast sweepers, technical medium-speed sections, and the main straight test tires and balance.

练习与复盘：把高速弯和技术段分开练习，记录持续加方向仍推头的位置，减少额外转向。

Practice and reflection: Practice sweepers and technical sections separately; note where extra steering adds scrub rather than rotation.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

灵活的方向变化和均衡空气动力学适合巴塞罗那的负荷弯。

Agile direction changes and balanced aero suit Barcelona's loaded corners.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**McLaren 720S LMGT3 Evo**

高速空气动力学信心有助于通过巴塞罗那的长距离负荷弯。

High-speed aero confidence helps through Barcelona's long loaded turns.

优点 / Strengths: 空气动力学效率 (aero efficiency) 高, 高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Porsche 911 GT3 R LMGT3**

后置引擎的牵引力有助于应对负荷弯后的技术性末段。

Rear-engine traction helps the technical final sector after loaded corners.

优点 / Strengths: 后置引擎带来牵引力 (traction) 和转向 / traction and rotation from the rear-engine layout

注意 / Caveats: 循迹刹车 (trail braking) 过深可能诱发车尾滑动 / trail braking can provoke the rear

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3**Mercedes-AMG LMGT3**

可预测平衡降低长距离负荷弯的操作负担, 同时保留有竞争力的出弯牵引力。

Predictable balance reduces workload through long loaded corners while retaining competitive exit traction.

优点 / Strengths: 制动稳定、牵引力强, 平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Ferrari 499P**

空气动力学性能和果断转向适合巴塞罗那的长距离负荷弯。

Aero performance and decisive rotation fit Barcelona's long loaded corners.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作, 更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Peugeot 9X8 2024**

灵活的空气动力学套件对 Barcelona 的混合型末段响应良好。

Its agile aero package responds well to Barcelona's mixed final sector.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校 (setup) 和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Porsche 963**

宽广的操作窗口适合巴塞罗那持续的轮胎负荷。

The broad operating window supports Barcelona's sustained tyre load.

优点 / Strengths: 操作窗口 (operating window) 宽广, 容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Porsche 963

宽广操作窗口支撑在 Barcelona 混合弯速中跑出快速且可重复的圈速。

The broad operating window supports fast, repeatable laps across Barcelona's mixed corner speeds.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

03 / 18 Circuit de la Sarthe

勒芒，法国 (Le Mans, France) | 13.626 km | BASE CONTENT

赛道特性：低阻力、极重制动区和长距离全油门。

Character: Low drag, extreme braking zones, and long full-throttle runs.

主要挑战：最大制动时的稳定性必须和直道效率共存。

Challenge: Stability under the biggest stops must coexist with efficient straight-line running.

驾驶建议：交通中采用保守的制动参考点，并保持进入每条长直道的速度。

Driving advice: Use conservative braking references in traffic and preserve momentum onto each long straight.

来源要点：官方同时指出 Mulsanne 高速直道及 Indianapolis、Arnage 技术弯的挑战。

Source observation: The overview contrasts the Mulsanne straight with technical Indianapolis and Arnage.

练习与复盘：分段复习高速末端制动和低速出弯，先建立可重复的制动参照。

Practice and reflection: Rehearse braking after fast sections and slow-corner exits separately, establishing repeatable braking references.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Ford Mustang LMGT3

直线速度和易掌控扭矩适合勒芒的长距离全油门路段。

Straight-line speed and accessible torque serve Le Mans' long full-throttle runs.

优点 / Strengths: 直线速度快，扭矩易于掌控 / straight-line speed and accessible torque

注意 / Caveats: 车重和前轮负荷在紧凑路段很明显 / mass and front-tyre load show in tight sectors

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMG3**McLaren 720S LMG3 Evo**

空气动力学效率让勒芒长直道更有信心，同时减少阻力。

Aero efficiency gives confidence while minimizing drag on Le Mans' straights.

优点 / Strengths: 空气动力学效率 (aero efficiency) 高，高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMG3**Ferrari 296 LMG3**

均衡空气动力学有助于把勒芒的极重制动区连接到快速变向。

Balanced aero helps link Le Mans' extreme braking zones to fast changes.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMG3**Mercedes-AMG LMG3**

平稳制动和强牵引力让漫长单圈更易管理，并保留进入直道的速度。

Calm braking and strong traction make the long lap manageable while preserving speed onto the straights.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Cadillac V-Series.R**

强力制动适合勒芒长直道前的极重制动。

Strong braking supports Le Mans' extreme stops before long straights.

优点 / Strengths: 制动强，机械牵引力 (traction) 好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Porsche 963**

宽广的窗口让勒芒漫长多变的单圈更安心。

Its broad window is reassuring across Le Mans' long, changing lap.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Ferrari 499P**

空气动力学性能适合勒芒的低阻力与高速需求。

Aero performance suits the low-drag and high-speed demands of Le Mans.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8

容易掌握的无尾翼赛车把实用直线效率与宽容的驾驶节奏结合起来。

The approachable wingless car combines useful straight-line efficiency with a forgiving driving rhythm.

优点 / Strengths: 平衡容易掌握，直线效率出色 / approachable balance and efficient straight-line pace

注意 / Caveats: 初代无尾翼方案需要整洁的轮胎管理 / the original wingless concept needs tidy tyre management

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

04 / 18 Circuit Paul Ricard

勒卡斯泰莱，法国 (Le Castellet, France) | 5.842 km | DLC

赛道特性：Mistral 直道、Signes 全力攻弯和技术末段。

Character: Mistral straight, Signes commitment, and a technical final sector.

主要挑战：单圈从直线效率切换到高速决心与低速转向。

Challenge: The lap swings from straight-line efficiency to high-speed commitment and slow rotation.

驾驶建议：逐步建立 Signes 的信心，之后提前制动来整理末段。

Driving advice: Build confidence progressively through Signes, then brake early enough to organize the final sector.

来源要点：官方介绍 Mistral 直道布局变化，以及蓝红色高摩擦缓冲区。

Source observation: The overview describes Mistral layout changes and abrasive blue/red runoff.

练习与复盘：先确认当前布局；用赛道内参照练制动，别把彩色缓冲区当正常走线。

Practice and reflection: Confirm the selected layout and use on-track braking references; keep colored runoff out of your normal line.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

McLaren 720S LMGT3 Evo

空气动力学效率和高速信心适合 Mistral 直道与 Signes。

Aero efficiency and high-speed confidence suit the Mistral and Signes.

优点 / Strengths: 空气动力学效率 (aero efficiency) 高，高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

均衡空气动力学和灵活变向有助于应对 Paul Ricard 技术末段。

Balanced aero and agile changes help Paul Ricard's technical final sector.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Porsche 911 GT3 R LMGT3

后置引擎牵引力有助于从 Paul Ricard 较慢末弯加速离开。

Rear-engine traction helps launch from Paul Ricard's slower final corners.

优点 / Strengths: 后置引擎带来牵引力（traction）和转向 / traction and rotation from the rear-engine layout

注意 / Caveats: 循迹刹车（trail braking）过深可能诱发车尾滑动 / trail braking can provoke the rear

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

Mercedes-AMG LMGT3

稳定的高速制动让 Mistral 末端更友好，同时不牺牲末段牵引力。

Stable high-speed braking keeps the Mistral approach friendly without dulling traction in the final sector.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Peugeot 9X8 2024

灵活空气动力学套件契合 Signes 攻弯与技术末段。

Its agile aero package fits Signes commitment and the technical final sector.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Ferrari 499P

空气动力学性能支撑 Paul Ricard 高速 Signes 组合。

Aero performance supports Paul Ricard's fast Signes sequence.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Alpine A424

紧凑响应有助于在 Paul Ricard 技术末段完成转向。

Compact response helps rotate through Paul Ricard's technical final sector.

优点 / Strengths: 车身紧凑，反应灵活 / compact, nimble response

注意 / Caveats: 制动稳定性（braking stability）取决于调校（setup） / braking stability is setup-sensitive

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8

直线效率和易掌握平衡适合从 Mistral 高速切换到低速转向。

Straight-line efficiency and approachable balance suit the lap's switch from Mistral speed to slow rotation.

优点 / Strengths: 平衡容易掌握，直线效率出色 / approachable balance and efficient straight-line pace

注意 / Caveats: 初代无尾翼方案需要整洁的轮胎管理 / the original wingless concept needs tidy tyre management

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

05 / 18 Circuit of the Americas

奥斯汀，美国 (Austin, United States) | 5.513 km | DLC

赛道特性：上坡制动、高速连续弯和低速牵引区。

Character: Uphill braking, fast esses, and slow traction zones.

主要挑战：开局爬升和连续弯会惩罚不稳定制动，低速出弯则奖励耐心。

Challenge: The opening climb and esses punish unstable braking, while slow exits reward patience.

驾驶建议：上坡提前放置车身，连续弯平顺变向，低速出弯尽量摆正车身。

Driving advice: Place the car early uphill, use smooth direction changes in the esses, and square slow exits.

来源要点：第一赛段高速起伏，后半圈更偏技术性，且常面对高温。

Source observation: A fast, undulating first sector contrasts with a technical second half and heat.

练习与复盘：单练第一段连续换向，避免为一个弯抢速度而破坏后续走线；再检查后半圈出弯。

Practice and reflection: Practice the opening direction changes as a sequence, then review exits in the technical half.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

BMW M4 LMGT3

稳定且兼容路肩的平衡有助于应对 COTA 上坡制动和高速连续弯。

Stable kerb-friendly balance helps COTA's uphill braking and fast esses.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Corvette Z06 LMGT3.R

自信制动和牵引力适合 COTA 上坡制动与低速出弯。

Confident braking and traction match COTA's uphill stops and slow exits.

优点 / Strengths: 制动信心足，牵引力（traction）可预测 / confident braking and predictable traction

注意 / Caveats: 需要耐心用油门带动车尾转向 / throttle rotation needs patience

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

灵活方向变化适合 COTA 高速连续弯和混合速度节奏。

Agile direction changes suit COTA's fast esses and mixed-speed flow.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

BMW M4 LMGT3

稳定且兼容路肩的平台让 COTA 多样挑战形成可预测的快速节奏。

Its stable, kerb-friendly platform turns COTA's varied demands into a predictable fast rhythm.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩（kerb） / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Porsche 963

容易上手的操作窗口有助于处理 COTA 混合制动与连续弯。

Its approachable operating window helps COTA's mixed braking and esses.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Cadillac V-Series.R

强力制动和牵引力支撑 COTA 上坡制动与低速区域。

Strong braking and traction support COTA's uphill stops and slow zones.

优点 / Strengths: 制动强，机械牵引力（traction）好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Ferrari 499P

果断转向适合精准输入下的 COTA 高速连续弯。

Decisive rotation works through COTA's fast esses when inputs stay precise.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Porsche 963

宽广操作窗口降低连续弯学习负担，同时保留全面且快速的表现。

A broad operating window lowers the learning load through the esses while retaining strong all-round pace.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

06 / 18 Daytona International Speedway

代托纳比奇，美国 (Daytona Beach, United States) | 5.729 km | DLC

赛道特性：高速倾斜弯效率、内场牵引力和 Bus Stop 稳定性。

Character: Banking efficiency, infield traction, and Bus Stop stability.

主要挑战：跟车和倾斜弯奖励效率，但内场与 Bus Stop 会惩罚突兀操作。

Challenge: Drafting and banking reward efficiency, but the infield and Bus Stop punish abrupt inputs.

驾驶建议：在倾斜弯保持干净速度，进入 Bus Stop 路肩前先让车身稳定。

Driving advice: Carry clean speed through banking, then settle the car before the Bus Stop kerbs.

来源要点：公路布局结合高速椭圆部分与技术内场，需要兼顾两种特性。

Source observation: The road course combines superspeedway speed with a technical infield.

练习与复盘：分别记录内场损失与高速段表现；调整前后用相同油量比较整圈，而非只看极速。

Practice and reflection: Track infield losses and fast-section performance separately; compare complete laps at equal fuel, not top speed alone.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Ford Mustang LMGT3

直线速度和易掌控扭矩有助于 Daytona 倾斜弯效率。

Straight-line speed and accessible torque help Daytona's banking efficiency.

优点 / Strengths: 直线速度快，扭矩易于掌控 / straight-line speed and accessible torque

注意 / Caveats: 车重和前轮负荷在紧凑路段很明显 / mass and front-tyre load show in tight sectors

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**BMW M4 LMGT3**

稳定兼容路肩平衡让 Daytona Bus Stop 保持稳定。

Stable kerb-friendly balance keeps Daytona's Bus Stop composed.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩（kerb） / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**McLaren 720S LMGT3 Evo**

空气动力学效率兼顾 Daytona 倾斜弯与高速信心。

Aero efficiency supports Daytona banking while retaining high-speed confidence.

优点 / Strengths: 空气动力学效率（aero efficiency）高，高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3**Mercedes-AMG LMGT3**

容易掌握的平衡与牵引力平顺连接内场和倾斜弯的反差。

Accessible balance and traction bridge the contrast between the infield and banking without drama.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Cadillac V-Series.R**

强力制动和牵引力适合 Daytona 内场及 Bus Stop 入口。

Strong braking and traction fit Daytona's infield and Bus Stop approach.

优点 / Strengths: 制动强，机械牵引力（traction）好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Porsche 963**

宽广的操作窗口让 Daytona 倾斜弯和内场更易掌控。

Its broad operating window keeps Daytona's banking and infield manageable.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**BMW M Hybrid V8**

通过路肩的信心有助于稳定 Daytona Bus Stop。

Kerb confidence helps stabilize the Daytona Bus Stop.

优点 / Strengths: 平台稳定，过路肩有信心 / stable platform and kerb confidence

注意 / Caveats: 低速弯需要耐心让车转起来 / needs patience to rotate in slow corners

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8

无尾翼赛车的直线效率让它成为低调威胁，同时平衡仍容易掌握。

The wingless car's straight-line efficiency makes it a quiet threat while its balance remains approachable.

优点 / Strengths: 平衡容易掌握，直线效率出色 / approachable balance and efficient straight-line pace

注意 / Caveats: 初代无尾翼方案需要整洁的轮胎管理 / the original wingless concept needs tidy tyre management

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

07 / 18 Fuji Speedway

小山町，日本 (Oyama, Japan) | 4.563 km | BASE CONTENT

赛道特性：超长直道，接着是低速技术性第三段。

Character: A very long straight followed by a slow technical third sector.

主要挑战：直道要求出弯速度，末段则需要受控转向和牵引力。

Challenge: The straight demands exit speed, then the final sector needs controlled rotation and traction.

驾驶建议：保护通往直道的出弯，然后在技术性第三段放慢手上动作。

Driving advice: Protect the exit onto the straight, then slow the hands down for the technical third sector.

来源要点：1.47 km 长直道、技术区和多变天气构成主要挑战。

Source observation: A 1.47 km straight, technical sections, and changeable weather define the challenge.

练习与复盘：反复练习通向主直道的出弯，再在不同天气中重建制动参照。

Practice and reflection: Repeat the exit onto the main straight, then rebuild braking references in different weather.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

BMW M4 LMGT3

稳定前置引擎平衡有助于超长直道后的制动。

Stable front-engine balance helps Fuji's braking after the very long straight.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Porsche 911 GT3 R LMGT3**

后置引擎牵引力支撑 Fuji 低速技术路段出弯。

Rear-engine traction supports Fuji's slow technical-sector exits.

优点 / Strengths: 后置引擎带来牵引力 (traction) 和转向 / traction and rotation from the rear-engine layout

注意 / Caveats: 循迹刹车 (trail braking) 过深可能诱发车尾滑动 / trail braking can provoke the rear

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Corvette Z06 LMGT3.R**

可预测牵引力适合从直道切换到 Fuji 低速弯。

Predictable traction fits Fuji's transition from the straight to slow corners.

优点 / Strengths: 制动信心足，牵引力 (traction) 可预测 / confident braking and predictable traction

注意 / Caveats: 需要耐心用油门带动车尾转向 / throttle rotation needs patience

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3**Lexus RC F LMGT3**

令人安心的稳定性让技术末段容易重复，并以实用速度进入长直道。

Reassuring stability makes the technical final sector easy to repeat, backed by usable speed onto the straight.

优点 / Strengths: 稳定感令人安心，V8 输出易用 / reassuring stability and usable V8 delivery

注意 / Caveats: 极紧凑的方向变化中转向较慢 / slower rotation in very tight changes

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Toyota GR010-Hybrid**

稳定性与牵引力适合 Fuji 长直道制动和低速路段。

Stability and traction suit Fuji's long-straight braking and slow sector.

优点 / Strengths: 稳定、牵引力 (traction) 好，适合耐力赛节奏 / stability, traction, and endurance-friendly behaviour

注意 / Caveats: 在紧凑路段转向较慢，可能损失时间 / slower rotation can cost time in tight sectors

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Porsche 963**

宽广操作窗口有助于处理 Fuji 反差明显的路段。

Its broad operating window helps manage Fuji's contrasting sectors.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Cadillac V-Series.R**

强力制动在 Fuji 超长直道末端很有用。

Strong braking is useful at the end of Fuji's very long straight.

优点 / Strengths: 制动强，机械牵引力 (traction) 好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8

高效直线表现与友好平衡契合 Fuji 反差极大的赛段。

Efficient straight-line running and a friendly balance fit Fuji's extreme sector contrast.

优点 / Strengths: 平衡容易掌握，直线效率出色 / approachable balance and efficient straight-line pace

注意 / Caveats: 初代无尾翼方案需要整洁的轮胎管理 / the original wingless concept needs tidy tyre management

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

08 / 18 Imola

伊莫拉，意大利 (Imola, Italy) | 4.909 km | DLC

赛道特性：狭窄节奏、高路肩、反复制动和牵引力。

Character: Narrow rhythm, tall kerbs, repeated braking, and traction.

主要挑战：赛道宽度有限会放大失误，高路肩也会考验制动与车身稳定。

Challenge: Limited width magnifies mistakes while tall kerbs challenge braking and composure.

驾驶建议：尊重路肩，提前放置车身，以入弯速度换取出弯牵引力。

Driving advice: Respect the kerbs, place the car early, and sacrifice entry speed for traction.

来源要点：官方列出 Tamburello、Villeneuve、Tosa、Rivazza 等起伏赛段。

Source observation: The overview highlights an undulating lap through Tamburello, Villeneuve, Tosa, and Rivazza.

练习与复盘：按这些弯组拆分练习，以连续干净圈验证节奏，再逐步增加速度。

Practice and reflection: Practice those corner groups separately; establish consecutive clean laps before increasing pace.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Porsche 911 GT3 R LMGT3

后置引擎牵引力适合 Imola 反复制动和狭窄出弯。

Rear-engine traction suits Imola's repeated braking and narrow exits.

优点 / Strengths: 后置引擎带来牵引力 (traction) 和转向 / traction and rotation from the rear-engine layout

注意 / Caveats: 循迹刹车 (trail braking) 过深可能诱发车尾滑动 / trail braking can provoke the rear

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**BMW M4 LMGT3**

兼容路肩的平衡有助于吸收 Imola 高路肩。

Kerb-friendly balance helps absorb Imola's tall kerbs.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩（kerb） / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Aston Martin Vantage AMR LMGT3**

平和制动支撑 Imola 狭窄节奏和反复制动。

Calm braking supports Imola's narrow rhythm and repeated stops.

优点 / Strengths: 平台顺从，制动动作平稳 / compliant platform and calm braking

注意 / Caveats: 允许带着可控的转向不足驾驶 / can lean into safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3**Mercedes-AMG LMGT3**

稳定制动和牵引力降低 Imola 狭窄节奏的惩罚，同时保持快速出弯。

Stable braking and traction reduce the penalty for Imola's narrow rhythm while keeping exits quick.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Porsche 963**

宽广操作窗口让 Imola 狭窄节奏更易掌控。

Its broad operating window helps keep Imola's narrow rhythm manageable.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**BMW M Hybrid V8**

稳定且有路肩通过信心，适合 Imola 高路肩和反复制动。

Stable kerb confidence fits Imola's tall kerbs and repeated braking.

优点 / Strengths: 平台稳定，过路肩有信心 / stable platform and kerb confidence

注意 / Caveats: 低速弯需要耐心让车转起来 / needs patience to rotate in slow corners

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Toyota GR010-Hybrid**

稳定性与牵引力奖励在 Imola 狭窄布局中的谨慎出弯。

Stability and traction reward careful exits on Imola's narrow layout.

优点 / Strengths: 稳定、牵引力（traction）好，适合耐力赛节奏 / stability, traction, and endurance-friendly behaviour

注意 / Caveats: 在紧凑路段转向较慢，可能损失时间 / slower rotation can cost time in tight sectors

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

BMW M Hybrid V8

路肩信心与平台稳定性让快速圈可重复，不要求过度敏锐的反应。

Kerb confidence and platform stability make fast laps repeatable without demanding sharp reactions.

优点 / Strengths: 平台稳定，过路肩有信心 / stable platform and kerb confidence

注意 / Caveats: 低速弯需要耐心让车转起来 / needs patience to rotate in slow corners

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

09 / 18 Interlagos

圣保罗，巴西 (São Paulo, Brazil) | 4.309 km | DLC

赛道特性：起伏、短单圈、中高速混合弯和出弯牵引力。

Character: Elevation, a short lap, mixed-speed corners, and traction exits.

主要挑战：紧凑单圈会放大每次牵引力出弯和地形起伏的影响。

Challenge: Compressed lap time makes every traction exit and elevation change highly visible.

驾驶建议：出弯优先于激进入弯，并在坡顶保持平台稳定。

Driving advice: Prioritize exits over aggressive entries and keep the platform settled over crests.

来源要点：Senna S、高低起伏和天气变化使走线衔接很重要。

Source observation: The Senna S, elevation changes, and variable weather shape the circuit.

练习与复盘：把 Senna S 当完整组合练习，记录出口位置；雨天重新检查视线与制动点。

Practice and reflection: Practice the Senna S as one sequence and record exit position; reassess sightlines and braking in rain.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

灵活方向变化适合 Interlagos 混合速度地形起伏。

Agile direction changes suit Interlagos' mixed-speed elevation changes.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Porsche 911 GT3 R LMGT3**

后置引擎牵引力有助于 Interlagos 反复牵引力出弯。

Rear-engine traction helps Interlagos' repeated traction exits.

优点 / Strengths: 后置引擎带来牵引力 (traction) 和转向 / traction and rotation from the rear-engine layout

注意 / Caveats: 循迹刹车 (trail braking) 过深可能诱发车尾滑动 / trail braking can provoke the rear

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Corvette Z06 LMGT3.R**

可预测牵引力支撑 Interlagos 短单圈和低速出弯。

Predictable traction supports Interlagos' short lap and slow exits.

优点 / Strengths: 制动信心足，牵引力 (traction) 可预测 / confident braking and predictable traction

注意 / Caveats: 需要耐心用油门带动车尾转向 / throttle rotation needs patience

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3**Lexus RC F LMGT3**

易用的 V8 输出与平稳平衡奖励在短而起伏单圈中的干净出弯。

Usable V8 delivery and calm balance reward clean exits around the short, undulating lap.

优点 / Strengths: 稳定感令人安心，V8 输出易用 / reassuring stability and usable V8 delivery

注意 / Caveats: 极紧凑的方向变化中转向较慢 / slower rotation in very tight changes

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Ferrari 499P**

果断转向契合 Interlagos 混合速度地形起伏。

Decisive rotation fits Interlagos' mixed-speed elevation changes.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Porsche 963**

宽广窗口让 Interlagos 短而多变单圈保持稳定。

Its broad window helps keep Interlagos' short, changing lap composed.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Cadillac V-Series.R**

机械牵引力适用于 Interlagos 频繁牵引力出弯。

Mechanical traction serves Interlagos' frequent traction exits.

优点 / Strengths: 制动强，机械牵引力 (traction) 好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Porsche 963

宽容窗口让地形变化更可预测，同时仍支撑快速转向。

Its forgiving window keeps elevation changes predictable while still supporting quick rotation.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

10 / 18 Lusail International Circuit

卢赛尔，卡塔尔 (Lusail, Qatar) | 5.419 km | DLC

赛道特性：持续中高速轮胎负荷 (tyre load) 和轮胎温度。

Character: Sustained medium/high-speed load and tyre temperature.

主要挑战：长距离负荷组合会暴露一段赛程里的轮胎温度与平衡。

Challenge: Long loaded sequences expose tyre temperature and balance over a full stint.

驾驶建议：避免让负荷轮胎滑动，保持小幅转向修正，并监控温度。

Driving advice: Avoid sliding the loaded tyres, keep steering corrections small, and watch temperatures.

来源要点：官方记录从白昼跑到灯光下的耐力赛，并提醒存在不同布局。

Source observation: The overview describes endurance racing from daylight into floodlights and multiple layouts.

练习与复盘：先核对布局，分别练白天和夜间参照，比较相同弯的制动识别是否稳定。

Practice and reflection: Confirm the layout, then compare daytime and nighttime braking references at the same corners.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

McLaren 720S LMGT3 Evo

高速空气动力学信心适合 Lusail 持续中速负荷。

High-speed aero confidence suits Lusail's sustained medium-speed load.

优点 / Strengths: 空气动力学效率 (aero efficiency) 高，高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Ferrari 296 LMGT3**

均衡空气动力学支撑 Lusail 长距离负荷弯和轮胎控制。

Balanced aero supports Lusail's long loaded corners and tyre control.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Lamborghini Huracan LMGT3 Evo2**

迅速响应适合 Lusail 流畅中高速组合，配合平顺输入。

Fast response helps Lusail's flowing medium/high-speed sequence with smooth inputs.

优点 / Strengths: 连续弯反应迅速 / fast response in flowing corners

注意 / Caveats: 尾部动态需要平顺操作 / rear movement requires smooth inputs

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3**Mercedes-AMG LMGT3**

稳定平台降低持续负荷带来的疲劳，牵引力则保留实用长段速度。

A stable platform makes sustained load less tiring while traction preserves useful stint pace.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Ferrari 499P**

空气动力学性能适合 Lusail 持续高速轮胎负荷。

Aero performance fits Lusail's sustained high-speed tyre load.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Peugeot 9X8 2024**

灵活空气动力学套件适合 Lusail 流畅中速路段。

Its agile aero package suits Lusail's flowing medium-speed sections.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Alpine A424**

紧凑响应有助于处理 Lusail 长距离负荷组合。

Compact response helps manage Lusail's long loaded sequences.

优点 / Strengths: 车身紧凑，反应灵活 / compact, nimble response

注意 / Caveats: 制动稳定性（braking stability）取决于调校（setup） / braking stability is setup-sensitive

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8 2024

友好转向与灵活空气动力学适合流畅单圈，不需要持续修正。

Friendly rotation and agile aero suit the flowing lap without demanding constant corrections.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

11 / 18 Monza

蒙扎，意大利 (Monza, Italy) | 5.793 km | BASE CONTENT

赛道特性：最高速度、重刹减速弯和激进路肩。

Character: Maximum speed, heavy chicane braking, and aggressive kerbs.

主要挑战：最高速很重要，但减速弯需要稳定制动和克制的路肩使用。

Challenge: Top speed matters, but the chicanes demand stable braking and measured kerb use.

驾驶建议：直线制动，不要每个路肩都硬吃，优先保证驶上长直道的出弯。

Driving advice: Brake straight, do not attack every kerb, and prioritize exits onto the long straights.

来源要点：长直道、复杂减速弯和高速是官方概括的核心特征。

Source observation: Long straights, demanding chicanes, and speed are the core features.

练习与复盘：分开练直道末端减速和减速弯出口，优先保证接下来直道的起始速度。

Practice and reflection: Separate end-of-straight braking practice from chicane exits, prioritizing speed onto the following straight.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Ford Mustang LMGT3

直线速度和扭矩适合 Monza 最高速重点。

Straight-line speed and torque suit Monza's maximum-speed focus.

优点 / Strengths: 直线速度快，扭矩易于掌控 / straight-line speed and accessible torque

注意 / Caveats: 车重和前轮负荷在紧凑路段很明显 / mass and front-tyre load show in tight sectors

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

McLaren 720S LMGT3 Evo

空气动力学效率支撑 Monza 长直道和高速接近段。

Aero efficiency supports Monza's long straights and fast approaches.

优点 / Strengths: 空气动力学效率 (aero efficiency) 高, 高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

均衡空气动力学有助于稳定 Monza 重刹减速弯制动。

Balanced aero helps stabilize Monza's heavy chicane braking.

优点 / Strengths: 方向变化灵活, 空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

BMW M4 LMGT3

可预测的重刹与路肩容忍度让减速弯更易掌握, 同时出弯仍强。

Predictable heavy braking and kerb tolerance make chicanes accessible while exits remain strong.

优点 / Strengths: 稳定的前置引擎平衡, 兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Cadillac V-Series.R

强力制动支撑 Monza 重刹减速弯。

Strong braking supports Monza's heavy chicane stops.

优点 / Strengths: 制动强, 机械牵引力 (traction) 好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Porsche 963

容易上手的窗口有助于处理 Monza 路肩和制动。

Its approachable window helps manage Monza's kerbs and braking.

优点 / Strengths: 操作窗口 (operating window) 宽广, 容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Ferrari 499P

空气动力学性能与 Monza 最高速重刹布局相配。

Aero performance pairs with Monza's maximum-speed, heavy-braking layout.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作, 更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8

初代无尾翼套件在易掌握平衡之下藏着实用直线速度。

The original wingless package hides useful straight-line pace behind an approachable balance.

优点 / Strengths: 平衡容易掌握，直线效率出色 / approachable balance and efficient straight-line pace

注意 / Caveats: 初代无尾翼方案需要整洁的轮胎管理 / the original wingless concept needs tidy tyre management

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

12 / 18 Portimão

波尔蒂芒，葡萄牙（Portimão, Portugal） | 4.653 km | BASE CONTENT

赛道特性：盲顶、压缩、转向和牵引力。

Character: Blind crests, compression, rotation, and traction.

主要挑战：坡顶会遮挡视线，压缩段会在关键出弯前考验平衡。

Challenge: Sightlines vanish over crests, and compression tests balance before traction-critical exits.

驾驶建议：在盲顶使用可重复的参考点，等车身稳定后再加油。

Driving advice: Use repeatable references over blind crests and delay throttle until the car is settled.

来源要点：起伏与多种弯速带来较高滑移能量，对轮胎要求高。

Source observation: Elevation changes and varied corner speeds create high sliding energy and tire demands.

练习与复盘：在坡顶与落差处减少突然输入；用连续圈检查滑移与胎况，而非只追单圈。

Practice and reflection: Reduce abrupt inputs around crests and elevation changes; assess sliding over consecutive laps.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Porsche 911 GT3 R LMGT3

后置引擎牵引力有助于 Portimão 盲顶出弯和转向。

Rear-engine traction helps Portimão's blind-crest exits and rotation.

优点 / Strengths: 后置引擎带来牵引力（traction）和转向 / traction and rotation from the rear-engine layout

注意 / Caveats: 循迹刹车（trail braking）过深可能诱发车尾滑动 / trail braking can provoke the rear

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

灵活方向变化契合 Portimão 压缩段和变化节奏。

Agile direction changes fit Portimão's compression and changing rhythm.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

McLaren 720S LMGT3 Evo

高速信心支撑输入平顺时的 Portimão 盲顶。

High-speed confidence supports Portimão's blind crests when inputs stay smooth.

优点 / Strengths: 空气动力学效率（aero efficiency）高，高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

Mercedes-AMG LMGT3

平稳制动有助于处理盲坡顶，强牵引力则奖励耐心出弯。

Calm braking helps decode blind crests, and strong traction rewards patient exits.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Ferrari 499P

果断转向适合 Portimão 压缩段和盲顶。

Decisive rotation suits Portimão's compression and blind crests.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Alpine A424

紧凑响应有助于在 Portimão 高度变化中完成转向。

Compact response helps rotate through Portimão's changing elevations.

优点 / Strengths: 车身紧凑，反应灵活 / compact, nimble response

注意 / Caveats: 制动稳定性（braking stability）取决于调校（setup） / braking stability is setup-sensitive

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Peugeot 9X8 2024

灵活空气动力学套件契合 Portimão 坡顶和流畅变向。

Its agile aero package fits Portimão's crests and flowing changes.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

BMW M Hybrid V8

平台稳定性让地形变化更易判断，同时不牺牲实用转向能力。

Platform stability makes the elevation changes readable without sacrificing useful rotation.

优点 / Strengths: 平台稳定，过路肩有信心 / stable platform and kerb confidence

注意 / Caveats: 低速弯需要耐心让车转起来 / needs patience to rotate in slow corners

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

13 / 18 Sebring International Raceway

赛百灵，美国 (Sebring, United States) | 6.019 km | BASE CONTENT

赛道特性：颠簸、粗糙制动路面和混凝土接缝上的牵引力。

Character: Bumps, rough braking surfaces, and traction over concrete seams.

主要挑战：路面起伏会打乱制动参考，需要能容忍颠簸的操作平台。

Challenge: Surface movement disrupts braking references and asks for a platform that tolerates bumps.

驾驶建议：在最差接缝处留余量，渐进制动，让车在你身下自由活动。

Driving advice: Leave margin over the worst seams, brake progressively, and let the car move underneath you.

来源要点：混凝土跑道遗留的颠簸是官方特别强调的难点。

Source observation: Concrete runway bumps are a defining challenge in the official overview.

练习与复盘：固定设置比较不同走线的颠簸与方向修正，选出能重复完成的路线。

Practice and reflection: With setup fixed, compare bumps and steering corrections on alternate lines; favor a repeatable route.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

BMW M4 LMGT3

兼容路肩的稳定平衡有助于应对 Sebring 颠簸和混凝土接缝。

Kerb-friendly stable balance helps Sebring's bumps and concrete seams.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Aston Martin Vantage AMR LMGT3**

循迹性好的平台与平和制动适合 Sebring 粗糙制动路面。

A compliant platform and calm braking suit Sebring's rough braking surfaces.

优点 / Strengths: 平台顺从，制动动作平稳 / compliant platform and calm braking

注意 / Caveats: 允许带着可控的转向不足驾驶 / can lean into safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3**Corvette Z06 LMGT3.R**

可预测牵引力有助于应对 Sebring 混凝土接缝和低速出弯。

Predictable traction helps Sebring's concrete seams and slow exits.

优点 / Strengths: 制动信心足，牵引力（traction）可预测 / confident braking and predictable traction

注意 / Caveats: 需要耐心用油门带动车尾转向 / throttle rotation needs patience

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3**Mercedes-AMG LMGT3**

稳定制动和牵引力降低粗糙路面的威慑感，同时保持稳定速度。

Stable braking and traction make the rough surface less intimidating while retaining consistent speed.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar**Cadillac V-Series.R**

强力制动和机械牵引力支撑 Sebring 粗糙路面。

Strong braking and mechanical traction support Sebring's rough surfaces.

优点 / Strengths: 制动强，机械牵引力（traction）好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**Porsche 963**

宽广操作窗口有助于处理一段赛程中的 Sebring 颠簸。

Its broad operating window helps manage Sebring's bumps over a stint.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar**BMW M Hybrid V8**

稳定平台和路肩通过信心适合 Sebring 混凝土接缝。

Stable platform and kerb confidence fit Sebring's concrete seams.

优点 / Strengths: 平台稳定，过路肩有信心 / stable platform and kerb confidence

注意 / Caveats: 低速弯需要耐心让车转起来 / needs patience to rotate in slow corners

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Cadillac V-Series.R

机械牵引力和强力制动让 Sebring 颠簸形成可管理的快速节奏。

Mechanical traction and strong braking turn Sebring's bumps into a manageable, fast rhythm.

优点 / Strengths: 制动强，机械牵引力（traction）好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

14 / 18 Silverstone International

银石 · 英国 (Silverstone, United Kingdom) | 2.979 km | DLC

赛道特性：紧凑单圈、频繁交通和反复变向。

Character: Compact lap, frequent traffic, and repeated direction changes.

主要挑战：短单圈里的交通几乎没有补救时间，反复变向则奖励响应灵敏的平台。

Challenge: Short lap traffic leaves little recovery time, while repeated changes reward a responsive platform.

驾驶建议：提前规划超车，保护出弯速度，每次变向只做一次干净的转向输入。

Driving advice: Plan passes early, preserve exit speed, and make one clean steering input per change.

来源要点：官方强调快速流畅的走向及 Copse、Maggots-Becketts 等弯。

Source observation: The overview emphasizes flowing speed, Copse, and Maggots-Becketts.

练习与复盘：确认使用包含这些弯的布局后，连贯练习换向，记录每个出口是否为下一弯留好位置。

Practice and reflection: On a layout containing these corners, practice linked changes of direction and check positioning for the next turn.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

McLaren 720S LMGT3 Evo

高速信心和空气动力学效率适合 Silverstone 反复变向。

High-speed confidence and aero efficiency suit Silverstone's repeated direction changes.

优点 / Strengths: 空气动力学效率 (aero efficiency) 高，高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

灵活方向变化有助于应对 Silverstone International 紧凑交通节奏。

Agile direction changes help in Silverstone International's compact traffic flow.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

BMW M4 LMGT3

稳定平衡在 Silverstone 频繁交通中提供可预测参考。

Stable balance gives predictable references amid Silverstone's frequent traffic.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩（kerb） / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

Mercedes-AMG LMGT3

容易掌握的平衡降低交通中的负担，同时保留反复变向速度。

Accessible balance limits workload in traffic while preserving speed through repeated changes.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Ferrari 499P

果断转向适合 Silverstone 紧凑反复变向。

Decisive rotation fits Silverstone's compact repeated changes.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Porsche 963

容易上手窗口有助于处理 Silverstone 短单圈交通。

Its approachable window helps manage traffic on Silverstone's short lap.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Peugeot 9X8 2024

灵活空气动力学响应支撑 Silverstone 快速变向。

Agile aero response supports Silverstone's quick direction changes.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Porsche 963

宽容操作窗口让紧凑单圈容易学习，也容易反复跑快。

The forgiving operating window makes the compact lap easy to learn and quick to repeat.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

15 / 18 Spa-Francorchamps

斯塔沃洛，比利时（Stavelot, Belgium） | 7.004 km | BASE CONTENT

赛道特性：高速空气动力学、起伏、长单圈和多变天气。

Character: High-speed aero, elevation, a long lap, and variable weather.

主要挑战：应对地形起伏的决心必须和天气、轮胎变化平衡。

Challenge: Commitment through elevation changes must be balanced against weather and tyre variation.

驾驶建议：在变化条件中逐步提速，并在高速压缩处留出余量。

Driving advice: Build speed gradually in changing conditions and leave margin at the high-speed compressions.

来源要点：海拔起伏、长赛道和快速变化的天气是官方提示的挑战。

Source observation: Elevation, a long lap, and rapidly changing weather are highlighted.

练习与复盘：按赛段检查抓地变化，先留制动余量，再逐步确认高速弯入口速度。

Practice and reflection: Check grip by sector, retain braking margin, and build confidence in fast-corner entry speeds progressively.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

McLaren 720S LMGT3 Evo

高速空气动力学信心适合 Spa 起伏和高速空气动力学路段。

High-speed aero confidence suits Spa's elevation and fast aero sections.

优点 / Strengths: 空气动力学效率 (aero efficiency) 高，高速信心足 / aero efficiency and high-speed confidence

注意 / Caveats: 低速牵引力和高路肩需要小心 / low-speed traction and tall kerbs need care

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

均衡空气动力学和灵活变向契合 Spa 漫长多变单圈。

Balanced aero and agile changes fit Spa's long, variable lap.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

BMW M4 LMGT3

稳定平衡在 Spa 天气变化时保持可预测表现。

Stable balance provides predictable behaviour as Spa weather changes.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

Mercedes-AMG LMGT3

稳定制动和平稳平台降低长单圈风险，同时不削弱牵引力。

Stable braking and a calm platform reduce risk across the long lap without blunting traction.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Ferrari 499P

空气动力学性能和果断转向适合 Spa 高速地形起伏。

Aero performance and decisive rotation fit Spa's high-speed elevation changes.

优点 / Strengths: 空气动力学性能和果断转向 / aero performance and decisive rotation

注意 / Caveats: 比起修正动作，更奖励精准操作 / rewards precise inputs more than corrections

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Porsche 963

宽广操作窗口有助于应对 Spa 长单圈和天气变化。

Its broad operating window helps through Spa's long lap and weather shifts.

优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Cadillac V-Series.R

强力制动和牵引力支撑 Spa 混合高速与湿地切换。

Strong braking and traction support Spa's mixed high-speed and wet transitions.

优点 / Strengths: 制动强，机械牵引力（traction）好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Peugeot 9X8 2024

容易掌握的转向与灵活空气动力学在 Spa 地形变化中提供低调速度。

Approachable rotation and agile aero provide quiet speed across Spa's changing elevations.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

16 / 18 WeatherTech Raceway Laguna Seca

蒙特雷，美国 (Monterey, United States) | 3.602 km | DLC

赛道特性：低速牵引力、起伏和 Corkscrew 组合。

Character: Low-speed traction, elevation, and the Corkscrew sequence.

主要挑战：Corkscrew 会迅速下坠，因此车身必须转过来又不牺牲下一处出弯。

Challenge: The Corkscrew drops away quickly, so the car must rotate without compromising the next exit.

驾驶建议：过坡顶提前制动，在 Corkscrew 用一次平顺转向，并保护牵引力。

Driving advice: Brake early over the crest, use one smooth rotation at the Corkscrew, and protect traction.

来源要点：Corkscrew 是有明显落差的盲左-右组合，赛道缓冲空间有限。

Source observation: The Corkscrew is a blind left-right drop, with limited runoff around the circuit.

练习与复盘：低速熟悉 Corkscrew 的参照和落点，连跑无越界圈后再提速。

Practice and reflection: Learn the Corkscrew references and landing at reduced speed, then build pace after consecutive clean laps.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Porsche 911 GT3 R LMGT3

后置引擎牵引力有助于 Laguna Seca 低速出弯和 Corkscrew 回正。

Rear-engine traction helps Laguna Seca's low-speed exits and Corkscrew recovery.

优点 / Strengths: 后置引擎带来牵引力 (traction) 和转向 / traction and rotation from the rear-engine layout

注意 / Caveats: 循迹刹车 (trail braking) 过深可能诱发车尾滑动 / trail braking can provoke the rear

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Corvette Z06 LMGT3.R

可预测牵引力和制动适合 Laguna Seca 地形起伏。

Predictable traction and braking suit Laguna Seca's elevation changes.

优点 / Strengths: 制动信心足，牵引力 (traction) 可预测 / confident braking and predictable traction

注意 / Caveats: 需要耐心油门带动车尾转向 / throttle rotation needs patience

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

BMW M4 LMGT3

稳定平衡有助于处理 Corkscrew 前的制动与路肩入口。

Stable balance helps the braking and kerb approach to the Corkscrew.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

Lexus RC F LMGT3

令人安心的稳定性降低 Corkscrew 难度，易用扭矩则帮助低速出弯。

Reassuring stability makes the Corkscrew less demanding while usable torque helps slow exits.

优点 / Strengths: 稳定感令人安心，V8 输出易用 / reassuring stability and usable V8 delivery

注意 / Caveats: 极紧凑的方向变化中转向较慢 / slower rotation in very tight changes

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Porsche 963

宽广操作窗口让 Laguna Seca Corkscrew 组合更容易上手。

Its broad operating window keeps Laguna Seca's Corkscrew sequence approachable.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Cadillac V-Series.R

强力制动和牵引力有助于 Laguna Seca 低速地形起伏。

Strong braking and traction help at Laguna Seca's low-speed elevation changes.

优点 / Strengths: 制动强，机械牵引力 (traction) 好 / strong braking and mechanical traction

注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

BMW M Hybrid V8

通过路肩的信心和稳定性支撑 Corkscrew 入口。

Kerb confidence and stability support the Corkscrew approach.

优点 / Strengths: 平台稳定，过路肩有信心 / stable platform and kerb confidence

注意 / Caveats: 低速弯需要耐心让车转起来 / needs patience to rotate in slow corners

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Porsche 963

宽广窗口让地形与 Corkscrew 更易掌握，同时保留强劲速度。

Its broad window makes the elevation and Corkscrew approachable while retaining strong pace.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

17 / 18 Road Atlanta

布拉塞尔顿，美国 (Braselton, United States) | 4.088 km | DLC

赛道特性：十二个弯角串联起伏、盲坡顶和不断变化的弯道倾角。

Character: Flowing elevation, blind crests, and changing camber across twelve corners.

主要挑战：高速组合会压缩制动和车身放置的决策时间，坡顶又会遮挡视线。

Challenge: Fast sequences compress braking and placement decisions while sightlines disappear over crests.

驾驶建议：先固定每个盲坡顶后的可重复参照，再逐步缩小安全余量。

Driving advice: Build repeatable references beyond each blind crest before reducing the safety margin.

来源要点：官方强调连续起伏弯、盲坡顶和不断变化的弯道倾角。

Source observation: The official overview highlights flowing elevation, blind crests, and changing camber.

练习与复盘：先用保守速度固定盲坡顶后的参照，再以连续干净圈比较起伏路段的一致性。

Practice and reflection: Fix references beyond blind crests at conservative speed, then compare consistency over consecutive clean laps.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

Mercedes-AMG LMGT3

稳定制动和牵引力让 Road Atlanta 盲区与负荷转换更容易整理。

Stable braking and traction make Road Atlanta's blind, loaded transitions easier to organize.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

BMW M4 LMGT3

兼容路肩的稳定性支撑 Road Atlanta 压缩段和快速地形变化。

Kerb-friendly stability supports Road Atlanta's compressions and quick elevation changes.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩 (kerb) / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Ferrari 296 LMGT3

灵活变向适合 Road Atlanta 流畅组合，前提是操作保持整洁。

Agile direction changes suit Road Atlanta's flowing sequence when inputs remain tidy.

优点 / Strengths: 方向变化灵活，空气动力学平衡 / agile direction changes and balanced aero

注意 / Caveats: 粗暴路肩可能打乱车身 / rough kerbs can unsettle it

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

Mercedes-AMG LMGT3

稳定制动降低盲坡顶压力，牵引力则让流畅单圈保持快速。

Stable braking lowers the stress of blind crests, while traction keeps the flowing lap quick.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK | Hypercar

Porsche 963

宽广操作窗口有助于稳定处理 Road Atlanta 的盲坡顶。

Its broad operating window helps make Road Atlanta's blind crests repeatable.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

BMW M Hybrid V8

平台稳定性与路肩信心契合赛道压缩和倾角变化。

Platform stability and kerb confidence fit the circuit's compression and camber changes.

优点 / Strengths: 平台稳定，过路肩有信心 / stable platform and kerb confidence

注意 / Caveats: 低速弯需要耐心让车转起来 / needs patience to rotate in slow corners

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | Hypercar

Peugeot 9X8 2024

灵活空气动力学响应支撑高速流畅变向。

Agile aero response supports the fast, flowing direction changes.

优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package

注意 / Caveats: 平衡对调校 (setup) 和路肩使用敏感 / balance is sensitive to setup and kerb use

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | Hypercar

Porsche 963

宽广操作窗口让倾角变化更易判断，同时不损失流畅弯速度。

A broad operating window makes changing camber readable without giving away flowing-corner pace.

优点 / Strengths: 操作窗口 (operating window) 宽广，容易上手 / broad, approachable operating window

注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

18 / 18 Long Beach

长滩，美国 (Long Beach, United States) | 3.167 km | DLC

赛道特性：真正的街道赛道，混凝土墙、盲入口和极小容错构成核心特征。

Character: A true street circuit with concrete walls, blind entries, and minimal margin.

主要挑战：重刹和低速转向都贴着墙完成，轻微的车身放置误差也会立刻付出代价。

Challenge: Heavy braking and slow rotation happen beside walls, so small placement errors carry immediate consequences.

驾驶建议：先建立可重复的制动与贴墙位置，再逐步缩小安全余量。

Driving advice: Establish repeatable braking and wall placement before reducing the safety margin.

来源要点：这是 LMU 首条真正街道赛道，混凝土墙、盲入口和极小容错构成主要挑战。

Source observation: LMU's first true street circuit is defined by concrete walls, blind entries, and minimal margin.

练习与复盘：先建立可重复的制动与贴墙位置，再逐步缩小安全余量，不以偶然一圈替代稳定性。

Practice and reflection: Establish repeatable braking and wall placement before reducing margin; do not trade consistency for one lucky lap.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方赛道资料 / Official circuit source](#)

LMGT3 推荐 / Recommendations

REGULAR PICK | LMGT3

BMW M4 LMGT3

稳定制动和可预测平衡适合 Long Beach 紧凑贴墙入口。

Stable braking and predictable balance suit Long Beach's tight wall-lined entries.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩（kerb） / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Corvette Z06 LMGT3.R

自信制动和可预测牵引力支撑街道赛的低速出弯。

Confident braking and predictable traction support the street circuit's slow exits.

优点 / Strengths: 制动信心足，牵引力（traction）可预测 / confident braking and predictable traction

注意 / Caveats: 需要耐心用油门带动车尾转向 / throttle rotation needs patience

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

REGULAR PICK | LMGT3

Mercedes-AMG LMGT3

容易掌握的平衡可降低 Long Beach 狭窄启停节奏中的负担。

Accessible balance reduces workload through Long Beach's narrow stop-start rhythm.

优点 / Strengths: 制动稳定、牵引力强，平衡容易掌握 / stable braking, strong traction, and an accessible balance

注意 / Caveats: 紧凑变向中可能出现可控的转向不足 / tight direction changes can bring safe understeer

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-09 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

SLEEPER PICK | LMGT3

BMW M4 LMGT3

可预测制动与路肩容忍度降低街道赛负担，牵引力支撑快速出弯。

Predictable braking and kerb tolerance reduce street-circuit workload while traction supports fast exits.

优点 / Strengths: 稳定的前置引擎平衡，兼容路肩（kerb） / stable, kerb-friendly front-engine balance

注意 / Caveats: 前轮会惩罚过度驾驶 / front tyres punish overdriving

适用版本 / Applicability: 未验证 / Unverified | 核验 / Review: 2026-09-22 | [赛道来源 / circuit source](#) | [车型来源 / car source](#)

Hypercar 推荐 / Recommendations

REGULAR PICK Hypercar Cadillac V-Series.R 强力制动和机械牵引力契合 Long Beach 重刹与低速出弯。 Strong braking and mechanical traction fit Long Beach's heavy stops and slow exits. 优点 / Strengths: 制动强，机械牵引力（traction）好 / strong braking and mechanical traction 注意 / Caveats: 扭矩可能增加后轮负荷 / torque can stress the rear tyres 适用版本 / Applicability: 未验证 / Unverified 核验 / Review: 2026-09-09 赛道来源 / circuit source 车型来源 / car source
REGULAR PICK Hypercar Porsche 963 宽广操作窗口让贴墙入口更从容且可重复。 The broad operating window helps keep wall-lined entries calm and repeatable. 优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window 注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring 适用版本 / Applicability: 未验证 / Unverified 核验 / Review: 2026-09-09 赛道来源 / circuit source 车型来源 / car source
REGULAR PICK Hypercar Peugeot 9X8 2024 灵活响应有助于在 Long Beach 紧凑变向中准确放置车身。 Agile response helps place the car through Long Beach's compact direction changes. 优点 / Strengths: 现代化空气动力学套件灵活 / agile modern aero package 注意 / Caveats: 平衡对调校（setup）和路肩使用敏感 / balance is sensitive to setup and kerb use 适用版本 / Applicability: 未验证 / Unverified 核验 / Review: 2026-09-09 赛道来源 / circuit source 车型来源 / car source
SLEEPER PICK Hypercar Porsche 963 宽容窗口让贴墙入口更易掌握，同时保留强劲启停节奏。 The forgiving window makes wall-lined entries approachable while retaining strong stop-start pace. 优点 / Strengths: 操作窗口（operating window）宽广，容易上手 / broad, approachable operating window 注意 / Caveats: 仍需监控轮胎温度 / tyre temperature still needs monitoring 适用版本 / Applicability: 未验证 / Unverified 核验 / Review: 2026-09-22 赛道来源 / circuit source 车型来源 / car source

车型图鉴 / Car Catalog

说明：本节收录全部 24 辆 Hypercar 与 LMGT3。优点、注意事项、来源要点及练习建议均来自项目当前数据；推荐配对见前述赛道章节。

Note: This section includes all 24 Hypercar and LMGT3 entries. Strengths, caveats, source observations, and exercises reflect the current project data; circuit pairings appear in the preceding chapters.

01 / 24 Aston Martin Vantage AMR LMGT3

LMGT3

优点：平台顺从，制动动作平稳

Strengths: compliant platform and calm braking

注意事项：允许带着可控的转向不足驾驶

Caveats: can lean into safe understeer

来源要点：指南描述入弯推头，也提醒重刹可能让车尾突然滑动。

Source observation: The guide describes entry understeer and possible rear snaps under hard braking.

练习与复盘：逐步调整拖刹释放，记录转向改善是否伴随车尾不稳。

Practice and reflection: Vary brake release gradually and note whether improved rotation costs rear stability.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

02 / 24 BMW M4 LMGT3

LMGT3

优点：稳定的前置引擎平衡，兼容路肩（kerb）

Strengths: stable, kerb-friendly front-engine balance

注意事项：前轮会惩罚过度驾驶

Caveats: front tyres punish overdriving

来源要点：指南建议渐进给油并平顺回正，以减少出弯车尾突发滑动。

Source observation: The guide favors progressive throttle and smooth steering unwind to limit exit snaps.

练习与复盘：用同一弯比较急给油与渐进给油，观察出口速度和修正次数。

Practice and reflection: Compare throttle ramps at one corner, observing exit speed and steering corrections.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

03 / 24 Corvette Z06 LMGT3.R

LMGT3

优点：制动信心足，牵引力（traction）可预测

Strengths: confident braking and predictable traction

注意事项：需要耐心用油门带动车尾转向

Caveats: throttle rotation needs patience

来源要点：指南强调主动转向特性，并提醒长段驾驶时照顾后胎。

Source observation: The guide notes eager rotation and the need to manage rear tires during stints.

练习与复盘：练习过弯心后平顺回正，用连续圈观察后胎滑移是否增加。

Practice and reflection: Practice smooth steering unwind after the apex and monitor rear sliding over consecutive laps.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

04 / 24 Ferrari 296 LMGT3

LMGT3

优点：方向变化灵活，空气动力学平衡

Strengths: agile direction changes and balanced aero

注意事项：粗暴路肩可能打乱车身

Caveats: rough kerbs can unsettle it

来源要点：指南提醒高速弯、脏空气和雨地中的车尾稳定性。

Source observation: The guide flags rear stability in fast corners, dirty air, and wet conditions.

练习与复盘：先稳定单车高速段，再留距离练跟车，避免直接照搬单车入口速度。

Practice and reflection: Establish solo fast-corner consistency, then practice following with space rather than copying solo entry speeds.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

05 / 24 Ford Mustang LMGT3

LMGT3

优点：直线速度快，扭矩易于掌控

Strengths: straight-line speed and accessible torque

注意事项：车重和前轮负荷在紧凑路段很明显

Caveats: mass and front-tyre load show in tight sectors

来源要点：指南认为入弯准备不足会持续推头，建议先充分降速。

Source observation: The guide warns that insufficient preparation and entry speed reduction produce persistent understeer.

练习与复盘：把减速做在入弯前，比较更早准备是否换来更顺畅的出弯。

Practice and reflection: Complete more speed reduction before turning and compare the resulting exit quality.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

06 / 24 Lamborghini Huracan LMGT3 Evo2

LMGT3

优点：连续弯反应迅速

Strengths: fast response in flowing corners

注意事项：尾部动态需要平顺操作

Caveats: rear movement requires smooth inputs

来源要点：指南区分入弯车尾活动与给油后出弯推头，也提醒过度拖刹。

Source observation: The guide distinguishes a mobile rear on entry from power-on exit understeer and warns against excessive trail braking.

练习与复盘：分开记录入弯和出弯问题，先平顺释放刹车，再调整给油时机。

Practice and reflection: Log entry and exit problems separately; smooth brake release before adjusting throttle timing.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

07 / 24 Lexus RC F LMGT3

LMGT3

优点：稳定感令人安心，V8 输出易用

Strengths: reassuring stability and usable V8 delivery

注意事项：极紧凑的方向变化中转向较慢

Caveats: slower rotation in very tight changes

来源要点：指南建议重视出口速度，并对路肩保持谨慎。

Source observation: The guide emphasizes exit speed and caution over kerbs.

练习与复盘：先用少吃路肩的路线稳定跑圈，再单独试验路肩是否真的带来收益。

Practice and reflection: Build consistency with modest kerb use, then test kerbs one at a time for actual gains.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

08 / 24 McLaren 720S LMGT3 Evo

LMGT3

优点：空气动力学效率（aero efficiency）高，高速信心足

Strengths: aero efficiency and high-speed confidence

注意事项：低速牵引力和高路肩需要小心

Caveats: low-speed traction and tall kerbs need care

来源要点：指南建议直线制动并保持弯速，注意过度转向消耗后胎。

Source observation: The guide favors straight-line braking and carried corner speed, while noting rear-tire costs from oversteer.

练习与复盘：比较流畅过弯与弯心过度减速，记录后胎滑移而不只看最快圈。

Practice and reflection: Compare flowing cornering with excessive apex slowing; track rear sliding as well as peak pace.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

09 / 24 Mercedes-AMG LMGT3

LMGT3

优点：制动稳定、牵引力强，平衡容易掌握

Strengths: stable braking, strong traction, and an accessible balance

注意事项：紧凑变向中可能出现可控的转向不足

Caveats: tight direction changes can bring safe understeer

来源要点：指南强调稳定制动、牵引力和容易掌握的平衡，同时提醒紧凑变向中的推头。

Source observation: The guide highlights stable braking, traction, and an accessible balance, while noting understeer in tight direction changes.

练习与复盘：先用平顺刹车释放建立稳定入口，再比较减少额外转向是否改善紧凑组合弯。

Practice and reflection: Establish a stable entry with smooth brake release, then test whether less steering improves tight sequences.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

10 / 24 Porsche 911 GT3 R LMGT3

LMGT3

优点：后置引擎带来牵引力（traction）和转向

Strengths: traction and rotation from the rear-engine layout

注意事项：循迹刹车（trail braking）过深可能诱发车尾滑动

Caveats: trail braking can provoke the rear

来源要点：指南强调平顺控制重心转移，给油前先让车身稳定并完成转向。

Source observation: The guide stresses smooth weight transfer and settling and rotating the car before acceleration.

练习与复盘：固定油量练习缓慢衔接松刹与给油，比较长段后半程是否仍能稳定出弯。

Practice and reflection: Practice a smooth brake-to-throttle transition at fixed fuel and check exit consistency late in a stint.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

11 / 24 Alpine A424

Hypercar

优点：车身紧凑，反应灵活

Strengths: compact, nimble response

注意事项：制动稳定性（braking stability）取决于调校（setup）

Caveats: braking stability is setup-sensitive

来源要点：指南描述默认设置下的推头，并建议为制动留出更长距离。

Source observation: The guide describes default-setup understeer and a need for more deliberate braking distance.

练习与复盘：先采用保守制动参照；确认能持续到达弯心后，再逐步缩短减速距离。

Practice and reflection: Start with conservative braking references and shorten the zone only after consistently reaching the apex.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

12 / 24 Aston Martin Valkyrie AMR-LMH

Hypercar

优点：自然吸气响应直接，非混合动力输出可预测

Strengths: naturally aspirated response and predictable non-hybrid delivery

注意事项：高速攻弯仍然需要平顺操作

Caveats: high-speed commitment still rewards smooth inputs

来源要点：官方车型页将其列为自然吸气、非混合动力 LMH。

Source observation: The official car page identifies it as a naturally aspirated, non-hybrid LMH.

练习与复盘：先用渐进给油熟悉非混合动力输出，再以连续干净圈调整高速入口。

Practice and reflection: Learn the non-hybrid delivery with progressive throttle, then tune fast-corner entry over consecutive clean laps.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方车型资料 / Official car page](#)

13 / 24 BMW M Hybrid V8

Hypercar

优点：平台稳定，过路肩有信心

Strengths: stable platform and kerb confidence

注意事项：低速弯需要耐心让车转起来

Caveats: needs patience to rotate in slow corners

来源要点：指南强调冷胎、冷刹车阶段的控制，特别是夜间。

Source observation: The guide highlights cold tires and brakes, particularly during night running.

练习与复盘：分别记录出站圈与热态圈的制动参照，不把热胎经验直接用于冷胎。

Practice and reflection: Record out-lap and warmed-up braking references separately instead of transferring warm-tire assumptions.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

14 / 24 Cadillac V-Series.R

Hypercar

优点：制动强，机械牵引力 (traction) 好
Strengths: strong braking and mechanical traction

注意事项：扭矩可能增加后轮负荷
Caveats: torque can stress the rear tyres

来源要点：指南提醒重刹后轮锁死及高速段车尾敏感。
Source observation: The guide warns about rear locking under heavy braking and rear sensitivity at speed.

练习与复盘：从直线渐进制动开始，记录锁死发生阶段，再练转向与松刹衔接。
Practice and reflection: Begin with progressive straight-line braking, log where lockups occur, then practice the turn-in transition.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

15 / 24 Ferrari 499P

Hypercar

优点：空气动力学性能和果断转向

Strengths: aero performance and decisive rotation

注意事项：比起修正动作，更奖励精准操作

Caveats: rewards precise inputs more than corrections

来源要点：指南提醒出弯给油时车尾可能突发滑动，雨地和旧胎更需留意。

Source observation: The guide flags power-on exit snaps, especially in rain or on worn tires.

练习与复盘：比较新旧胎下的给油坡度，优先找到不用反复修方向的加速方式。

Practice and reflection: Compare throttle ramps on fresh and worn tires, aiming for acceleration without repeated corrections.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

16 / 24 Genesis GMR-001

Hypercar

优点：前端响应敏锐，变向能力强

Strengths: responsive front end and strong change of direction

注意事项：灵活性要求克制而精准的转向输入

Caveats: its agility asks for measured steering inputs

来源要点：官方车型页将 GMR-001 收录为 Hypercar 级别车型。

Source observation: The official car page lists the GMR-001 in the Hypercar class.

练习与复盘：固定设置练习连续变向，比较减少方向修正后能否稳定保留出口速度。

Practice and reflection: With setup fixed, practice linked direction changes and test whether fewer corrections preserve exit speed.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方车型资料 / Official car page](#)

17 / 24 Glickenhaus SCG 007

Hypercar

优点：非混合动力输出直接，直线效率实用

Strengths: simple non-hybrid delivery and useful straight-line efficiency

注意事项：低速转向需要耐心控制循迹刹车

Caveats: low-speed rotation needs patient trail braking

来源要点：官方车型页将 SCG 007 收录为非混合动力 LMH。

Source observation: The official car page lists the SCG 007 as a non-hybrid LMH.

练习与复盘：用相同油量比较直道末端制动与低速转向，优先建立可重复参照。

Practice and reflection: At equal fuel, compare end-of-straight braking and slow rotation, prioritizing repeatable references.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方车型资料 / Official car page](#)

18 / 24 Isotta Fraschini Tipo 6

Hypercar

优点：高速平台稳定，动力输出渐进

Strengths: stable high-speed platform and progressive power delivery

注意事项：低速弯变向会显得较为迟缓

Caveats: slow-corner direction changes can feel deliberate

来源要点：官方车型页将 Tipo 6 收录为 Hypercar 级别车型。

Source observation: The official car page lists the Tipo 6 in the Hypercar class.

练习与复盘：从保守制动点开始，记录低速组合中一次转向能否完成车身放置。

Practice and reflection: Start from conservative braking points and log whether one steering input places the car through slow sequences.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方车型资料 / Official car page](#)

19 / 24 Lamborghini SC63

Hypercar

优点：转向活跃，中速响应强

Strengths: lively rotation and strong medium-speed response

注意事项：尾部动态要求平顺地收放油门

Caveats: rear movement demands a smooth throttle release

来源要点：官方车型页将 SC63 收录为 LMDh Hypercar。

Source observation: The official car page lists the SC63 as an LMDh Hypercar.

练习与复盘：分开测试收油转向与出弯给油，避免同时改变两个阶段的操作。

Practice and reflection: Test lift-off rotation and exit throttle separately rather than changing both phases at once.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方车型资料 / Official car page](#)

20 / 24 Peugeot 9X8

Hypercar

优点：平衡容易掌握，直线效率出色

Strengths: approachable balance and efficient straight-line pace

注意事项：初代无尾翼方案需要整洁的轮胎管理

Caveats: the original wingless concept needs tidy tyre management

来源要点：官方车型页保留初代无尾翼 9X8，与 2024 版分列。

Source observation: The official car page keeps the original wingless 9X8 separate from the 2024 version.

练习与复盘：以固定油量跑连续圈，比较直线效率与轮胎滑移，不用单圈结论代替长段表现。

Practice and reflection: Run consecutive laps at fixed fuel and compare straight-line efficiency with tire sliding rather than judging one lap.

核验 / Review: 2026-09-22 | 未验证 / Unverified | [Le Mans Ultimate](#)

[LMU 官方车型资料 / Official car page](#)

21 / 24 Peugeot 9X8 2024

Hypercar

优点：现代化空气动力学套件灵活

Strengths: agile modern aero package

注意事项：平衡对调校（setup）和路肩使用敏感

Caveats: balance is sensitive to setup and kerb use

来源要点：指南认为车头未转好就给油会加重推头，迫使二次收油。

Source observation: The guide explains that accelerating before rotation is complete increases understeer and forces another lift.

练习与复盘：在同一弯延后一点给油，检查是否减少二次收油并改善出口位置。

Practice and reflection: Delay throttle slightly at one corner and check whether it reduces second lifts and improves exit position.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

22 / 24 Porsche 963

Hypercar

优点：操作窗口（operating window）宽广，容易上手

Strengths: broad, approachable operating window

注意事项：仍需监控轮胎温度

Caveats: tyre temperature still needs monitoring

来源要点：指南描述较中性的平衡，但过于激进的出弯仍会诱发转向过度。

Source observation: The guide describes neutral balance but notes that aggressive exits can still induce oversteer.

练习与复盘：保留相同设置，比较不同给油速度下的出弯稳定性，记录连续圈而非偶然最快圈。

Practice and reflection: Keep setup fixed and compare throttle application rates over consecutive laps, not one exceptional lap.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

23 / 24 Toyota GR010-Hybrid

Hypercar

优点：稳定、牵引力（traction）好，适合耐力赛节奏

Strengths: stability, traction, and endurance-friendly behaviour

注意事项：在紧凑路段转向较慢，可能损失时间

Caveats: slower rotation can cost time in tight sectors

来源要点：指南提醒入弯过快会转为推头，刹车锁死时需释放压力恢复滚动。

Source observation: The guide warns that excessive entry speed induces understeer and advises releasing pressure to recover from locking.

练习与复盘：先降低入口速度，比较是否更早稳定给油；单独练习识别并释放锁死。

Practice and reflection: Reduce entry speed and compare how soon stable acceleration becomes possible; separately practice lockup recognition and release.

核验 / Review: 2026-09-09 | 未验证 / Unverified | [Coach Dave Academy / The Inside Line](#)

[LMU 官方车型资料 / Official car page](#)

24 / 24 Vanwall Vandervell 680

Hypercar

优点：非混合动力输出直接，车身响应紧凑

Strengths: direct non-hybrid power delivery and compact response

注意事项：牵引力与尾部稳定性更奖励耐心操作

Caveats: traction and rear stability reward patient inputs

来源要点：官方车型页将 Vandervell 680 收录为非混合动力 LMH。

Source observation: The official car page lists the Vandervell 680 as a non-hybrid LMH.

练习与复盘：先用渐进刹车和给油建立稳定圈，再单独缩短制动区，观察牵引力是否受损。

Practice and reflection: Build stable laps with progressive braking and throttle, then shorten braking zones separately and monitor traction.
